
RAMPHOTYPHLOPS BRAMINUS
(Brahminy Blind Snake). MÉXICO:
JALISCO: Puerto Vallarta. 21 February
1990. Harold A. Dundee. Specimen
found DOR on sidewalk of hotel grounds
that were planted with various exotics.
Verified by James R. Dixon. UNAM MZFC-
04754. New state record. Nearest previ-
ous record at Rosario, Sinaloa is ca. 245
km N of Puerto Vallarta; more distant
records lie eastward in Querétaro and
southward in Guerrero (Dixon and
Hendricks 1979, Zool. Verh. [173]: 1-39).
